15 March 2018

Dear Sirs

We hereby confirm that Messrs Abdul Aziz Hamad Al Saleh S.P.C. are an authorised Distributor of McAlpine Plumbing products.

We have numerous approvals worldwide for many products with international organisations such as Komo, lapmo, LGA, and our products conform to BS EN 274 in most cases, being the general relevant Norm. As we have over 20,000 products, it is impractical to have every product approved, but all approvals require a minimum standard in force equal to ISO 9000, even although the company do not specifically hold ISO 9000 certificates we attach the approvals referred to.

Yours faithfully

Kenneth B McAlpine
Director
